Objective

Motivated and enthusiastic Computer Science student with a specialization in Artificial Intelligence and Machine Learning. Seeking an internship opportunity to contribute to innovative AI projects and gain practical exposure to AI-powered software development and intelligent agents.

Education

- **Bachelor of Technology in Computer Science (AIML), Parul University**

July 2024 – June 2028

- **Class 12th, Siddhartha Junior College, Tandur**

June 2022 – March 2024

- **SSC, Sri Chaitanya School, Tandur**

June 2021 – May 2022

Skills

- **Programming Languages:** Python, Java, C, HTML
- **Machine Learning Tools:** Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- **AI/ML Concepts:** Supervised & Unsupervised Learning, Model Evaluation, Feature Engineering
- **Frameworks & Tools:** Jupyter Notebook, Git, VS Code
- **Other Skills:** Python Modules, ML Modules, Data Visualization

Experience

Machine Learning Intern, Corizo EdTech | Feb 2025 – Present

- Working on real-time machine learning applications and models
- Collaborating with team to develop AI-based solutions and automate prediction tasks
- Conducted data preprocessing, feature selection, model training and evaluation using Python

AI Intern

CollegeTips.in | May 2025 – Present

- Contributing to AI-driven projects including chatbot development, digital literacy tools, and smart educational platforms.
- Working with technologies like Python, Dialogflow, ChatGPT API, and Voiceflow to build user-friendly AI solutions.

Projects

Stock Market Prediction

GitHub: <https://github.com/IRFAN260806/Stock-Price-Prediction.git>

- Built a machine learning model to predict stock prices using historical data
- Utilized regression models and data visualization techniques for analysis
- Applied various ML algorithms for better accuracy and model performance
